1 Project Corey Kupersmith, Cascade Renewable Transmission	Editorial Suggestions in General	Update Figure 4 to show Cascade Renewable Transmission Project western terminal as Harborton	Figure 4 will be updated to show Harborton as the western terminus
2 Project Corey Kupersmith, Cascade Renewable Transmission	Editorial Suggestions in General	On the description of Cascade Renewable Transmission Project in the Non-Incumbent Transmission Projects, please update the distance to 100 miles.	The project description will be updated from 80 to 100 miles This request will not be accommodated.
3 Project Corey Kupersmith, Cascade Renewable Transmission	Regional Summary of Needs	Provide the summer and winter peak loads for each NorthernGrid Member	NorthernGrid provides load summaries at the NorthernGrid level.
4 Project Corey Kupersmith, Cascade Renewable Transmission	Regional Summary of Needs	Break out Appendix D resources by technology	Resources table is now broken down by technology type and state in appendix D
5 Project Corey Kupersmith, Cascade Renewable Transmission	Case Analysis	Case 5 and 18 appear to be the same regional combination. We believe Case 18 should include the first 6 transmission projects in addition to Cascade Renewable Transmission.	Case 18 modified to include the first six transmission projects in addition to Cascade Renewable Transmission
6 Project Corey Kupersmith, Cascade Renewable Transmission	Case Analysis	Are any of the BPA Evolving Grid #1 or #2 transmission upgrades included in the NorthernGrid cases?	Yes, the Bonanza/John Day to Bonanza project listed in Appendix C
7 Project Corey Kupersmith, Cascade Renewable Transmission	Case Analysis	Bethel RoundButte is included in the regional combinations but not mentioned elsewhere in the report as either a Local Transmission Project or a Member Driven Transmission Project. What is driving the inclusion of the project in the Regional Combinations?	Bethel Round Butte will be added to the list of Member-Driven RegionalProjects
8 Project Corey Kupersmith, Cascade Renewable Transmission	Case Analysis	Suggest the inclusion of a Regional Combination that includes Cascade Renewable Transmission Project in addition to Bethel - RoundButte. Request adding it to Case 3 or creating a new case to study this Regional Combination.	Bethel Round Butte, Blueprint, and the Bonanza projects will all be added to Case 3. Case 3 is supposed to represent all Regional transmission projects. Bethel-Round Butte also added to case 18.
9 Marian Bonar, Gallatin Power	Non-Incumbent Transmission Projects	Update the Western Bounty Project description	Western Bounty Project description updated per suggested language
